Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools. The next steps are...

- ➔ Sharpen and narrow the school's Explicit Improvement Agenda (EIA) supported with a detailed plan for writing improvement including targets, Quality Assurance (QA) processes and roles and responsibilities for all stakeholders.
- ➔ Collaboratively review and widely communicate the student code of conduct to ensure consistent processes and timely follow-through to support improved student engagement and behaviour and improved school community perception.
- ➔ Cultivate student agency across the school by collaboratively exploring the dimensions of engagement including the importance of mutually respectful relationships and implementing strategies to build students' self-efficacy and aspirations across all classes.
- ➔ Fully develop and enact the P-12 curriculum, assessment and reporting framework (P-12 CARF) to ensure it provides an explicit, aligned, sequenced and accessible plan for whole-school curriculum delivery with mapping of the general capabilities and cross-curriculum priorities.
- ➔ Prioritise building the instructional leadership capability and expectations of all school leaders to support change management and school success.
